

ADMINISTRATIVE NOTES

U.S. GOVERNMENT PRINTING OFFICE  
SUPERINTENDENT OF DOCUMENTS  
LIBRARY AND STATUTORY DISTRIBUTION SERVICE

VOL. 3, NO. 14

SEPTEMBER 1982

ENERGY SURVEY

The 40 categories listed in the recent DoE survey are drawn from the publication ENERGY CATEGORIES, DOE/TIC-4584-R4, March, 1980, and correspond to the main subject divisions used in ENERGY RESEARCH ABSTRACTS. DoE publications on microfiche distributed through the Depository Library Program will be available for selection under 40 items corresponding to these categories. Libraries now purchasing DoE reports on microfiche on subscription from Engineering Services, Inc. (ESI) are able to select from 62 UC-numbered categories, which are listed in the STANDARD DISTRIBUTION FOR UNCLASSIFIED SCIENTIFIC AND TECHNICAL REPORTS, DOE/TIC-4500(Rev.70), 1982.

Subscriptions from ESI include both U.S. and foreign energy publications in each category. Depository distribution of this material will not include the foreign publications because they are not federally funded. Therefore, depositories which cancel their subscriptions with ESI will not receive any foreign energy publications even if they select all 40 of the new GPO items. ESI will be encouraged to make the foreign publications available as a separate subscription package for libraries which require total coverage of this material in their collections.

NEW SHELVING INSTALLED

Your library may have noticed a temporary slowdown in arrival of depository shipments in August. This was due to the installation of new larger depository bins at the Library and Statutory Distribution Service. As soon as we use up the remaining stock of small cartons (probably in October), we will shift over to the more economical, larger cartons. However, while the line was down, the truckloads of documents continued to arrive at LSDS. The result is a temporary backlog of paper and fiche publications awaiting shipment. Please bear with us during the next few weeks while we work to eliminate this backlog and get our processing back on schedule.

STATE PLAN INFORMATION AHEAD

One result of the forthcoming "State Plan Information Exchange" will be a State Plan Librarians List which will go to all depositories after the meeting in Alexandria, Virginia, on September 19th. It will contain the very latest information on contact people who are coordinating State Plans for Government Documents. Watch for it!

## SMITHSONIAN CHANGES

The Smithsonian Archives office reports that documents formerly issued in the series "Contributions from the National Herbarium" have been incorporated into "Smithsonian Contributions to Botany". The old class, SI 3.8: (v.nos.), will be removed from the List of Classes. The class for "Smithsonian Contributions to Botany" is SI 1.29:(nos.).

## BIENNIAL REPORTS STILL WANTED!

Depository Library response to the AD NOTE for July (Volume 3, Number 9) netted 112 missing Biennial Reports. However, there are still libraries whose Reports have not yet been received. Please check the list below. If it happens that your Report has been lost or never received, we will send you a new one to fill out. Just drop a note to: Dan MacGilvray, Administrative Librarian, GPO, Library Division, 5236 Eisenhower Avenue, Alexandria, VA 22304.
